FORTY-EIGHTH ANNUAL ANNOUNCEMENT

OF THE

ST. LOUIS MEDICAL COLLEGE,

SEVENTH STREET AND CLARK AVENUE.

Collegiate Year, 1889-90,

AND

CATALOGUE FOR 1888-89.

---

THE COLLEGIATE YEAR BEGINS ON TUESDAY, SEPTEMBER 24, 1889, AND  
ENDS ON FRIDAY, MAY 23, 1890.

---

ST. LOUIS, MO.:  
NIXON-JONES PRINTING CO.  
JUNE, 1889.

## CALENDAR.

---

The FORTY-EIGHTH ANNUAL SESSION begins on Tuesday, September 24th, 1889, and ends on Friday, May 23d, 1890. Preliminary Examinations will be held on Saturday, September 21st, and Monday, September 23d.

COMMENCEMENT: Thursday, March 13th, 1890.

HOLIDAYS: Thanksgiving Day; Christmas Day to New Year's Day, inclusive; Washington's Birthday; and Commencement Week — March 6th to 16th inclusive.

---

The College is situated at the northeast corner of Seventh Street and Clark Avenue. Students on arriving in the city are requested to apply to the Janitor for all required information as to boarding, etc. Good board at convenient distances from the College may be obtained at from five to seven dollars a week. Physicians who may desire to receive the Annual Announcement regularly are requested to make written application to the Secretary of the Faculty, Dr. H. H. MUDD, No. 2604 Locust Street; notice of any change of residence is also desired. All further information may be obtained by addressing or calling upon the Dean, 3132 Washington Avenue.

J. S. B. ALLEYNE, M. D., DEAN.

## ST. LOUIS MEDICAL COLLEGE.

- E. F. SMITH, M.D., LL.D., *Professor of Clinical Medicine and Pathological Anatomy, Emeritus.*  
L. CH. BOISLINIERE, M.D., LL.D., *Professor of Obstetrics, Emeritus.*

## FACULTY.

- A. LITTON, M.D., *Professor of Chemistry and Pharmacy.*  
J. B. JOHNSON, M.D., *Professor of the Principles and Practice of Medicine.*  
E. H. GREGORY, M.D., *Professor of the Principles and Practice of Surgery, and Clinical Surgery*  
J. S. B. ALLEYNE, M.D., DEAN, *Professor of Therapeutics and Materia Medica, and Diseases of Children.*  
G. BAUMGARTEN, M.D., *Professor of Special Pathology and Therapeutics.*  
H. H. MUDD, M.D., SECRETARY, *Professor of Surgical Anatomy, and Clinical Surgery.*  
W. E. FISCHER, M.D., *Professor of Clinical Medicine.*  
R. LUEDEKING, M.D., *Professor of Pathological Anatomy.*  
JOHN GREEN, M.D., *Professor of Ophthalmology.*  
J. M. SCOTT, M.D., *Professor of Obstetrics.*  
J. P. BRYSON, M.D., *Professor of Diseases of the Genito-Urinary Organs.*  
G. HOMAN, M.D., *Professor of Hygiene and Forensic Medicine.*  
WM. TOWNSEND PORTER, M.D., *Professor of Physiology.*  
F. R. FRY, M.D., *Professor of Anatomy.*

## OTHER INSTRUCTORS.

- N. B. CARSON, M.D., *Adjunct Professor of the Principles and Practice of Surgery.*  
W. C. GLASGOW, M.D., *Adjunct Professor of the Principles and Practice of Medicine.*  
J. FRIEDMAN, M.D., *Director of the Chemical Laboratory, and Instructor in Practical Chemistry.*  
C. H. HUGHES, M.D., *Lecturer on Nervous and Mental Diseases, and Electrotherapy.*  
HENRY SCHWARZ, M.D., *Lecturer on Gynæcology.*  
F. A. GLASGOW, M.D., *Clinical Lecturer on Gynæcology.*  
GEO. F. GILL, M.D., *Lecturer on Clinical Medicine.*  
J. GRINDON, M.D., *Lecturer on Diseases of the Skin.*  
J. B. SHAPLEIGH, M.D., *Lecturer on Diseases of the Ear.*  
HARRY HODGEN, M.D., *Clinical Lecturer on Orthopædic Surgery, and Curator of the Museum.*  
H. G. MUDD, M.D., *Instructor in Anatomy.*  
P. Y. TUPPER, M.D., *Instructor in Anatomy.*  
W. N. BEGGS, M.D., *Instructor in Normal Histology, and Bacteriology.*  
E. M. SENSENEY, M.D., *Instructor in Practical Physiology, and in Physical Diagnosis.*  
OTTO KOLLME, M.D., *Instructor in Practical Pharmacy.*  
A. W. OLCOTT, M.D., *Assistant in the Histological Laboratory.*  
E. E. GREGORY, JR., M.D., *Assistant in Practical Anatomy.*  
H. L. NIETERT, M.D., *Prosector to the Chair of Anatomy.*

STAFF OF THE O'FALLON DISPENSARY.

DIRECTOR: PROF. H. H. MUDD.

CLINICAL LECTURERS:

PROF. J. S. B. ALLEYNE; *Diseases of Children.*  
PROF. H. H. MUDD; *Surgery.*  
PROF. W. E. FISCHER; *Medicine.*

## FORTY-EIGHTH ANNUAL ANNOUNCEMENT:

1889-90.

The sessions of the ST. LOUIS MEDICAL COLLEGE cover a period of eight calendar months, beginning on the fourth Tuesday of September and ending on the fourth Friday of May. The course of instruction extends over three, or four, collegiate years, as follows:

### THREE YEARS COURSE.

Attendance on THREE ANNUAL SESSIONS is required of all candidates for the degree of *Doctor of Medicine*. The studies are graded throughout the course, and are so arranged that the work of each year constitutes a necessary introduction to that of each succeeding year.

The JUNIOR YEAR\* is largely devoted to practical LABORATORY WORK, in all the fundamental branches. Didactic teaching and the study of text-books are supplemented, throughout, by parallel demonstrative and practical courses. After the close of the season for Dissection, instruction is given in Practical Pharmacy, in the methods of Physical Diagnosis, and in Surgical Dressing.

In the MIDDLE YEAR† laboratory work is continued, in Pathological Anatomy and Histology, and in Experimental Physiology and Pharmacology; and the general and special branches of Medicine and Surgery are taken up, in logical order, both in lectures and in clinics. Particular attention is paid, in this year, to the practical training of each student in Diagnosis.

In the SENIOR YEAR‡ the courses of lectures are continued in all the general and special departments of Medicine and Surgery, and the number of clinical exercises is very largely increased. In this year Bacteriology is especially studied, in its relations to Pathology; the methods of culture, and of staining and mounting, are taught practically in the Bacteriological Laboratory.

At the close of the Senior Year the student may become a candidate for examination for the degree of *Doctor of Medicine*,§ or he may elect to continue his studies during a *Fourth Year*.

### FOUR YEARS COURSE.

The FOURTH YEAR begins in March, and ends with Commencement in the following year. The instruction is mainly in the special branches of Medicine and Surgery, and includes the use of instruments of precision, such as the Ophthalmoscope, the Laryngoscope, etc., the methods of practical Gynæ-

† For the list of studies of the Middle Year, see pages 10 and 14.

‡ For the list of studies of the Senior Year, see pages 11 and 15.

§ For the requirements for the degree of *Doctor of Medicine*, see page 17.

cology, the passing of sounds, the application of remedies to the Larynx and to the Ear, the therapeutic use of Electricity, and other practical work connected with the special subjects included in the course. Advanced instruction is given in the laboratories of Histology, Bacteriology, and Pathology.

At the close of the FOURTH YEAR the student may take the final examinations for the degree of *Doctor of Medicine*, or, having been admitted to and having taken all the courses of instruction comprised in the FOURTH YEAR, ADVANCED COURSE, he may become a candidate for graduation *with honors*.

The FOURTH YEAR, ADVANCED COURSE, \* is open to all students who, having completed the work of the Senior Year, have passed in their examinations in all the required subjects of the Junior and Middle Years.† Special clinical facilities, and opportunities for advanced work in all the laboratories of the College, will be afforded to those taking this course.

At the close of the FOURTH YEAR, ADVANCED COURSE, the student may become a candidate for the degree of *Doctor of Medicine, cum laude*,‡ or, in the case of his attaining to pre-eminent rank in his examinations, he may be graduated *summa cum laude*.

#### REQUISITES FOR ADMISSION.

Candidates for admission to the College will be received upon the presentation of a degree in Letters or Science from a College or Scientific School, of a certificate of graduation from a High School, or of a first-grade teacher's certificate; or upon passing an examination upon the usual branches of a good English education.

Students who have attended one course of lectures in an accredited regular School of Medicine may enter the Middle class upon examination in the studies of the Junior year.§ Students who have attended two such courses of lectures may enter the Senior class upon examination in the studies of the Junior and Middle years.||

These examinations will be conducted, wholly or in part, in writing; in judging the work of the candidates, the spelling, grammar, and construction will be considered.

Candidates for admission to the Junior class will be received either in March or at the beginning of the collegiate year, in September. Students commencing their studies in March will be graded as members of the Junior class until May of the following year. The studies assigned to the spring months will be so arranged as to provide for advanced work, by such students, in those branches.

#### POST-GRADUATE STUDY.

Physicians, graduates of an accredited regular school of Medicine, are admitted to any of the courses of instruction given in this College, subject

|| See page 12.

to such restrictions as may grow out of the assignment of hours in the programmes of work laid out for the several classes, and to the single, further restriction that, in the case of those desirous of taking advanced laboratory work, such proficiency in elementary work as may be necessary to its successful prosecution will be required. A certificate of actual attendance will be given upon request. Physicians who desire to become candidates for the degree of *Doctor of Medicine* in this College must enter the college in September, and must take, with the Senior Class, the course of instruction comprised in the list of studies of the Senior Year.\*

#### COURSE OF INSTRUCTION.

CHEMISTRY. — *Lectures* (three a week) September to March, in *Junior* and *Middle* years. *Exercises in Practical Chemistry* (four hours a week) September to May, in *Junior* year.

ANATOMY. — *Lectures* (three a week) September to March, and (two a week) March to May, in *Junior* and *Middle* years. *Osteology* and *Syndesmology* (two hours a week) September to March, in *Junior* year. *Practical Anatomy* (twelve hours a week) November to March, in *Junior* and *Middle* years.

HISTOLOGY. — *Practical Exercises in Histological Laboratory* (four hours a week) in *Junior* year, and (two hours a week) in *Fourth* year. *Demonstrative Course in Bacteriology* (two hours a week) September to March, in *Senior* year, (four hours a week) March to May, and (two hours a week) September to March, in *Fourth* year.

SURGICAL ANATOMY. — *Lectures* (one a week) September to March, in *Middle* and *Senior* years. *Regional Dissection* (twelve hours a week) November to March, in *Senior* and *Fourth* years.

PHYSIOLOGY. — *Lectures* (three a week) September to March, and (one a week) March to May, in *Junior* and *Middle* years. *Demonstrations in Experimental Physiology* (two hours a week) September to May, in *Junior* year, and (two hours a week) September to March, in *Middle* year. *Practical Exercises in Physiological Chemistry* (four hours a week) March to May, in *Junior* year, and (four hours a week) September to March, in *Middle* year.

MATERIA MEDICA. — *Instruction* (three hours a week) March to May, in *Junior* year. *Practical Exercises in Pharmacy* (four hours a week) March to May, in *Junior* year.

PATHOLOGICAL ANATOMY. — *Lectures* (two a week) September to May, in *Middle* year. *Practical Exercises in Pathological Histology* (four hours a week) September to May, in *Middle* year, and (four hours a week) in *Fourth* year. *Exercises in the Performance of Autopsies*, in *Middle*, *Senior*, and *Fourth* years.

THERAPEUTICS. — *Lectures* (three a week) September to March, in *Middle* year. *Experimental Pharmacology* (two hours a week) March to May, in *Middle* year.

PRINCIPLES AND PRACTICE OF MEDICINE. — *Lectures* (four a week) September to March, in *Middle* and *Senior* years. *Elements of Auscultation and Percussion* (two hours a week) March to May, in *Junior* year. *Physical Diagnosis* (two hours a week) September to March, in *Middle* year.

---

\* For the conditions under which physicians, graduates of other medical schools, may take the Fourth Year, Advanced Course, and be admitted to examination for the degree of *Doctor of Medicine, cum laude*, see page 17.

SPECIAL PATHOLOGY AND THERAPEUTICS. — *Lectures* (two a week) March to May, in *Middle* year, and (two a week) in *Senior* and *Fourth* years.

CLINICAL MEDICINE. — *Lectures* (one a week) in *Middle* and *Senior* years. *Medical Clinics* (two hours a week) September to March, in *Middle* year, (five hours a week) March to May, in *Middle* year, (five hours a week) in *Senior* year, and (three hours a week) in *Fourth* year.

PRINCIPLES AND PRACTICE OF SURGERY. — *Lectures* (three a week) September to March, in *Middle* and *Senior* years. *Surgical Dressings* (two hours a week) March to May, in *Junior* year. *Special Fractures and Dislocations* (one hour a week) March to May in *Middle* and *Fourth* years. *Surgical Operations on the Cadaver*, in *Senior* and *Fourth* years.

CLINICAL SURGERY. — *Surgical Clinics* (three hours a week) September to March, in *Middle* year, (five hours a week) March to May, in *Middle* year, (five hours a week) in *Senior* year, and (four hours a week) in *Fourth* year.

OBSTETRICS. — *Lectures* (three a week) September to March, in *Middle* and *Senior* years.

HYGIENE. — *Lectures* (two a week) September to December, in *Senior* year.

FORENSIC MEDICINE. — *Lectures* (two a week) December to March, in *Senior* year.

DISEASES OF WOMEN. — *Lectures* (two a week) March to May, in *Middle* year, and (one a week) in *Senior* and *Fourth* years. *Clinics* (two hours a week) March to May, in *Middle* year, (two hours a week) in *Senior* year, and (three hours a week) in *Fourth* year.

DISEASES OF CHILDREN. — *Lectures* (one a week) March to May, in *Middle* year, and (one a week) in *Senior* and *Fourth* years. *Clinics* (one hour a week) March to May, in *Middle* year, and (one hour a week) in *Senior* and *Fourth* years.

DISEASES OF THE EYE. — *Lectures* (one a week) March to May, in *Middle* year, and (one a week) in *Senior* and *Fourth* years. *Clinics* (one hour a week) March to May, in *Middle* year, (one hour a week) in *Senior* year, and (two hours a week) in *Fourth* year.

NERVOUS AND MENTAL DISEASES. — *Lectures* (one a week) March to May, in *Middle* year, (one a week) in *Senior* year, and (one a week) September to March, in *Fourth* year. *Clinics* (one hour a week) March to May, in *Middle* year, (one hour a week) in *Senior* year, and (two hours a week) in *Fourth* year.

DISEASES OF THE GENITO-URINARY ORGANS, AND SYPHILIS. — *Lectures* (one a week) March to May, in *Middle* year, and (one a week) in *Senior* and *Fourth* years. *Clinics* (one hour a week) March to May, in *Middle* year, (one hour a week) in *Senior* year, and (three hours a week) in *Fourth* year.

DISEASES OF THE SKIN. — *Clinical Instruction* (one hour a week) March to May, in *Middle* year, (one hour a week) in *Senior* year, and (two hours a week) in *Fourth* year.

DISEASES OF THE EAR. — *Clinical Instruction* (one hour a week) March to May, in *Middle* year, (one hour a week) in *Senior* year, and (two hours a week) in *Fourth* year.

DISEASES OF THE THROAT. — *Clinical Instruction* (one hour a week) March to May, in *Middle* year, (one hour a week) in *Senior* year, and (two hours a week) in *Fourth* year.

ORTHOPÆDIC SURGERY. — *Clinical Instruction* (one hour a week) March to May, in *Middle* year, and (one hour a week) in *Senior* and *Fourth* years.

DIVISION OF STUDIES.

JUNIOR YEAR.

CHEMISTRY. — *Three lectures a week, for five months.*  
PRACTICAL CHEMISTRY. — *Four hours a week, for eight months.*  
ANATOMY. — *Three lectures a week, for five months, and two lectures a week, for three months.*  
OSTEOLOGY AND SYNDESMOLOGY. — *Two hours a week, for five months.*  
PRACTICAL ANATOMY. — *Twelve hours a week, for three months.*  
PRACTICAL EXERCISES IN HISTOLOGY. — *Four hours a week, for eight months.*  
PHYSIOLOGY. — *Three lectures a week, for five months, and one lecture a week, for three months.*  
PHYSIOLOGICAL DEMONSTRATIONS. — *Two hours a week, for eight months.*  
EXERCISES IN PHYSIOLOGICAL CHEMISTRY. — *Four hours a week, for three months.*  
MATERIA MEDICA. — *Three hours a week, for three months.*  
EXERCISES IN PRACTICAL PHARMACY. — *Four hours a week, for three months.*  
NORMAL AUSCULTATION AND PERCUSSION. — *Two hours a week, for three months.*  
SURGICAL DRESSINGS. — *Two hours a week, for three months.*

MIDDLE YEAR.

CHEMISTRY. — *Three lectures a week, for five months.*  
ANATOMY. — *Three lectures a week, for five months, and two lectures a week, for three months.*  
PRACTICAL ANATOMY. — *Twelve hours a week, for three months.*  
SURGICAL ANATOMY. — *One lecture a week, for five months.*  
PHYSIOLOGY. — *Three lectures a week, for five months, and one lecture a week for three months.*  
PHYSIOLOGICAL DEMONSTRATIONS. — *Two hours a week, for five months.*  
EXERCISES IN PHYSIOLOGICAL CHEMISTRY. — *Four hours a week, for five months.*  
PATHOLOGICAL ANATOMY. — *Two lectures a week, for eight months.*  
PATHOLOGICAL HISTOLOGY. — *Four hours a week, for eight months.*  
EXERCISES IN THE PERFORMANCE OF AUTOPSIES.  
THERAPEUTICS. — *Three lectures a week, for five months.*  
EXPERIMENTAL PHARMACOLOGY. — *Two hours a week, for three months.*  
PRINCIPLES AND PRACTICE OF MEDICINE. — *Four lectures a week, for five months.*  
SPECIAL PATHOLOGY AND THERAPEUTICS. — *Two lectures a week, for three months.*  
EXERCISES IN PHYSICAL DIAGNOSIS. — *Two hours a week, for five months.*  
CLINICAL MEDICINE. — *One lecture a week, for eight months.*  
MEDICAL CLINICS. — *Two hours a week, for five months, and five hours a week, for three months.*  
PRINCIPLES AND PRACTICE OF SURGERY. — *Three lectures a week, for five months.*  
SPECIAL FRACTURES AND DISLOCATIONS. — *One hour a week, for three months.*  
SURGICAL CLINICS. — *Three hours a week, for five months, and five hours a week, for three months.*  
OBSTETRICS. — *Three lectures a week, for five months.*  
DISEASES OF WOMEN. — *Two lectures a week, for three months.*  
GYNÆCOLOGICAL CLINICS. — *Two hours a week, for three months.*  
DISEASES OF CHILDREN. — *One lecture a week, for three months.*  
CLINIC FOR DISEASES OF CHILDREN. — *One hour a week, for three months.*  
DISEASES OF THE EYE. — *One lecture a week, for three months.*  
OPHTHALMIC CLINIC. — *One hour a week, for three months.*  
NERVOUS AND MENTAL DISEASES. — *One lecture a week, for three months.*  
CLINIC FOR NERVOUS DISEASES. — *One hour a week, for three months.*  
SYPHILIS. — *One lecture a week, for three months.*  
CLINIC FOR DISEASES OF THE GENITO-URINARY ORGANS, AND SYPHILIS. — *One hour a week, for three months.*  
DISEASES OF THE SKIN. — *Clinical Instruction, one hour a week, for three months.*  
DISEASES OF THE EAR. — *Clinical Instruction, one hour a week, for three months.*  
DISEASES OF THE THROAT. — *Clinical Instruction, one hour a week, for three months.*  
ORTHOPÆDIC SURGERY. — *Clinical Instruction, one hour a week, for three months.*

SENIOR YEAR.

SURGICAL ANATOMY. — *One lecture a week, for five months.*  
 REGIONAL DISSECTION. — *Twelve hours a week, for three months.*  
 EXERCISES IN THE PERFORMANCE OF AUTOPSIES.  
 DEMONSTRATIVE COURSE IN BACTERIOLOGY. — *Two hours a week, for five months.*  
 PRINCIPLES AND PRACTICE OF MEDICINE. — *Four lectures a week, for five months.*  
 SPECIAL PATHOLOGY AND THERAPEUTICS. — *Two lectures a week, for five months.*  
 CLINICAL MEDICINE. — *One lecture a week, for five months.*  
 MEDICAL CLINICS. — *Five hours a week, for five months.*  
 PRINCIPLES AND PRACTICE OF SURGERY. — *Three lectures a week, for five months.*  
 EXERCISES IN OPERATIVE SURGERY ON THE CADAVER.  
 SURGICAL CLINICS. — *Five hours a week, for five months.*  
 OBSTETRICS. — *Three lectures a week, for five months.*  
 HYGIENE. — *Two lectures a week, for eleven weeks.*  
 FORENSIC MEDICINE. — *Two lectures a week, for eleven weeks.*  
 DISEASES OF WOMEN. — *One lecture a week, for five months.*  
 GYNÆCOLOGICAL CLINICS. — *Two hours a week, for five months.*  
 DISEASES OF CHILDREN. — *One lecture a week, for five months.*  
 CLINIC FOR DISEASES OF CHILDREN. — *One hour a week, for five months.*  
 DISEASES OF THE EYE. — *One lecture a week, for five months.*  
 OPHTHALMIC CLINIC. — *One hour a week, for five months.*  
 NERVOUS AND MENTAL DISEASES. — *One lecture a week, for five months.*  
 CLINIC FOR NERVOUS DISEASES. — *One hour a week, for five months.*  
 DISEASES OF THE GENITO-URINARY ORGANS. — *One lecture a week, for five months.*  
 CLINIC FOR DISEASES OF THE GENITO-URINARY ORGANS, AND SYPHILIS. — *One hour a week, for five months.*  
 DISEASES OF THE SKIN. — *Clinical Instruction, one hour a week, for five months.*  
 DISEASES OF THE EAR. — *Clinical Instruction, one hour a week, for five months.*  
 DISEASES OF THE THROAT. — *Clinical Instruction, one hour a week, for five months.*  
 ORTHOPÆDIC SURGERY. — *Clinical Instruction, one hour a week, for five months.*

FOURTH YEAR, ADVANCED COURSE.

REGIONAL DISSECTION. — *Twelve hours a week, for three months.*  
 EXERCISES IN THE PERFORMANCE OF AUTOPSIES.  
 SURGICAL OPERATIONS ON THE CADAVER.  
 PRACTICAL EXERCISES IN BACTERIOLOGY. — *Four hours a week, for three months, and two hours a week for five months.*  
 PRACTICAL EXERCISES IN HISTOLOGY. — *Two hours a week, for eight months.*  
 PATHOLOGICAL HISTOLOGY. — *Four hours a week, for eight months.*  
 SPECIAL PATHOLOGY AND THERAPEUTICS. — *Two lectures a week, for eight months.*  
 MEDICAL CLINICS. — *Three hours a week, for eight months.*  
 SURGICAL CLINICS. — *Four hours a week, for eight months.*  
 DISEASES OF WOMEN. — *One lecture a week, for eight months.*  
 GYNÆCOLOGICAL CLINICS. — *Three hours a week, for eight months.*  
 DISEASES OF CHILDREN. — *One lecture a week, for eight months.*  
 CLINIC FOR DISEASES OF CHILDREN. — *One hour a week, for eight months.*  
 DISEASES OF THE EYE. — *One lecture a week for eight months.*  
 OPHTHALMIC CLINIC. — *Two hours a week, for eight months.*  
 NERVOUS AND MENTAL DISEASES. — *One lecture a week, for five months.*  
 CLINIC FOR NERVOUS DISEASES. — *Two hours a week, for eight months.*  
 DISEASES OF THE GENITO-URINARY ORGANS AND SYPHILIS. — *One lecture a week, for eight months.*  
 CLINIC FOR DISEASES OF THE GENITO-URINARY ORGANS AND SYPHILIS. — *Three hours a week, for eight months.*  
 DISEASES OF THE SKIN. — *Clinical Instruction, two hours a week, for eight months.*  
 DISEASES OF THE EAR. — *Clinical Instruction, three hours a week, for eight months.*  
 DISEASES OF THE THROAT. — *Clinical Instruction, three hours a week, for eight months.*  
 ORTHOPÆDIC SURGERY. — *Clinical Instruction, one hour a week, for eight months.*

## EXAMINATIONS.

### I.— AT THE END OF THE JUNIOR YEAR:

- (1) In *Chemistry*: (a) Practical Chemistry.
- (2) In *Anatomy*: (a) Osteology and Syndesmology;\*  
(b) Practical Anatomy;\*  
(c) Normal Histology.
- (3) In *Materia Medica and Therapeutics*:  
(a) General properties of Drugs;  
(b) Elements of Pharmacy.

\* These examinations will be held in March, after the close of the season for dissection.

### II.— AT THE END OF THE MIDDLE YEAR:

- (1) In *Chemistry*: (b) *Final Examination*.
- (2) In *Anatomy*: (d) *Final Examination*.
- (3) In *Materia Medica and Therapeutics*:  
(c) Therapeutics;  
(d) Experimental Pharmacology.
- (4) In *Physiology*: (a) Physiological Chemistry;†  
(b) *Final Examination*.
- (5) In *Pathological Anatomy*:  
(a) Pathological Anatomy;  
(b) Pathological Histology.
- (6) In *Surgical Anatomy, and Clinical and Operative Surgery*.  
(a) Special Fractures and Dislocations.

† This examination will be held in March, after the close of the laboratory exercises.

Students are required to pass in a majority of the subjects upon which examinations are appointed to be held at the end of the *Junior* and *Middle* years, before entering upon the work of the *Senior* year.

### III.— AT THE END OF THE SENIOR YEAR:

- (6) In *Surgical Anatomy, and Clinical and Operative Surgery*.  
(b) Surgical Anatomy;  
(c) Surgical Operations on the Cadaver.
- (7) *Principles and Practice of Medicine*.
- (8) *Principles and Practice of Surgery*.
- (9) *Obstetrics*.
- (10) *Clinical Medicine*.
- (11) *Hygiene and Forensic Medicine*.
- (12) *Special Pathology and Therapeutics*.‡
- (13) *Ophthalmology*.‡
- (14) *Gynecology*.‡
- (15) *Diseases of the Genito-Urinary Organs, and Syphilis*.‡

‡ Students taking a *Four-years Course* will be examined in these subjects at the end of the *Fourth Year*.

### IV.— AT THE END OF THE FOURTH YEAR, ADVANCED COURSE:

- (12) *Special Pathology and Therapeutics*.
- (13) *Ophthalmology*.§
- (14) *Gynecology*.§
- (15) *Diseases of the Genito-Urinary Organs, and Syphilis*.§
- (16) *Diseases of the Nervous System*.
- (17) *Diseases of the Upper Air Passages*.§
- (18) *Otology*.§
- (19) *Dermatology*.§

§ In these subjects the examination will be both practical and theoretical.

## REQUIREMENTS FOR THE DEGREE OF DOCTOR OF MEDICINE.

- (1) The candidate must be twenty-one years of age, and of good moral character.
  - (2) He must have attended not less than *three* regular annual courses of medical instruction, the last of which must have been the Senior, or the Fourth-Year, Course of this College.
  - (3) He must, by the first of February, have notified the Dean, in writing, of his intention to present himself for examination.
  - (4) He must pass a satisfactory examination in all the required subjects of the Senior year, and in those of the required subjects of the Middle and Junior years in which he may not have passed a final examination before the beginning of his Senior year.
- The Faculty recommend the student to postpone his examination in *Special Pathology and Therapeutics, Ophthalmology, Gynecology, and Diseases of the Genito-Urinary Organs and Syphilis*, until the end of a fourth year of study. Students who elect this course must, by the first of February in their Senior year, give written notice of their intention to the Dean.

### THE FOURTH YEAR, ADVANCED COURSE.

The *Fourth Year, Advanced Course* is open to students and physicians, who have attended the Senior Year at this college, and who have, before the beginning of the Fourth Year, passed a satisfactory examination in all the branches of the Junior and Middle Years.

Graduates of other accredited medical schools, of three or more years' standing, may enter this advanced course by passing a satisfactory examination in all the required branches of the Junior and Middle Years.

### THE DEGREE OF DOCTOR OF MEDICINE, CUM LAUDE.

The degree of *Doctor of Medicine, cum laude* is awarded to Fourth Year advanced students, who, having passed in all the required subjects of the four years, shall have attained to an average of seventy-five per cent.

Applicants for this honor, who, having fulfilled its requirements, shall have attained to an average of ninety per cent. shall receive the degree of *Doctor of Medicine, summa cum laude*.

Applicants who fail in their examination for these higher degrees, but whose average justifies their graduation, shall receive the degree of *Doctor of Medicine*.

Students who have been admitted to the Fourth Year, Advanced Course, and who intend to become candidates for the degree of *Doctor of Medicine, cum laude*, must notify the Dean, in writing, of such intention by the first of February of the Fourth Year.

### FEES.

Matriculation Fee (paid but once),	- - - - -	\$ 5 00
Fee for the Junior, Middle and Senior Years, each,	- - - - -	90 00
Fee for the Fourth Year, Advanced Course,	- - - - -	90 00
For laboratory supplies and anatomical material, payable with the tuition fee, each year,	- - - - -	10 00

No charge is made for demonstrator's or hospital tickets, or for graduation.

The payment of the matriculation fee and the fees for one year, as above specified, by students who enter the Junior Class in March, entitles such students to instruction during the full collegiate year, ending in May of the following year.

The matriculation fee (\$5.00), and the fees for one year, are payable to the Dean at at the time of matriculating; the fees for the Middle Year, and for the Senior Year, are payable at the beginning of the college year, in September; the fees for the Fourth Year, Advanced Course, are payable at the beginning of the course, in March.

Students are required to provide themselves with such articles of chemical apparatus as test-tubes, watch-glasses, small evaporating dishes, etc., and also to make good any loss by breakage or destruction of apparatus belonging to the College.

All indebtedness to the College must be discharged before the close of the Senior Year, and before entering on the final examination for graduation.

**NOTE**—Graduates of the St. Louis Medical College have perpetual free admission, but will be charged for laboratory supplies and anatomical material.

Graduates, under three years, of other medical schools, will be charged the matriculation fee and twenty dollars, for attendance during a college year or part of a year; they will be also charged for laboratory supplies and anatomical material.

Graduates of other medical schools, of three or more years' standing, will be charged the matriculation fee and the fee for laboratory supplies and anatomical material.

Graduates in medicine who may be admitted to the College as candidates for a degree will be charged the matriculation fee and the fees for one year.

## TEXT-BOOKS.

The names of works recommended as **TEXT-BOOKS** are printed in **heavy-faced** type; those recommended for reference, in light-faced type.

### CHEMISTRY.

**Roscoe's Lessons in Elementary Chemistry (1888).** Fownes's *Elementary Chemistry* (12th edition).

### ANATOMY.

**Gray's Anatomy (11th edition).** **Treves's Applied Anatomy.** **Klein's Elements of Histology (3d edition).** Quain's *Anatomy* (9th edition). Holden's *Osteology* (7th edition). *Weisse's Practical Human Anatomy.*

### PHYSIOLOGY.

**Foster's Text-Book of Physiology (1889).**

Landois and Stirling's *Text-Book of Human Physiology* (3d edition). Kirkes's *Handbook of Physiology* (12th edition). Charles's *Elements of Physiological and Pathological Chemistry.* McGregor-Robertson's *Elements of Physiological Physics.*

### MATERIA MEDICA.

**United States Dispensatory (16th edition).** *National Dispensatory* (4th edition). *United States Pharmacopœia* (6th revision). *Biddle's Materia Medica* (11th edition).

### THERAPEUTICS.

**H. C. Woods's Therapeutics (7th edition).** *Brunton's Pharmacology, Therapeutics, and Materia Medica* (3d edition). *Ede's Therapeutics and Materia Medica.* *Ringer's Handbook of Therapeutics* (12th edition).

### PATHOLOGICAL ANATOMY.

**Green's Morbid Anatomy (1889),** or **Delafield and Prudden's Handbook of Pathological Anatomy and Histology (2d edition).** *Orth's Compend of Diagnosis in Pathological Anatomy* (2d edition).

### MEDICINE.

**Struempell's Text-Book of Medicine (2nd edition),** or **Loomis's Text-Book of Practical Medicine (3rd edition).** **Loomis's Physical Diagnosis, or Flint's Manual of Auscultation and Percussion (4th edition).** *Pepper's System of Medicine* by American Authors. *Flint's Practice of Medicine* (6th edition). *J. L. Smith's Diseases of Children* (6th edition). *E. Smith's Clinical Studies of Diseases in Children* (2nd edition). *Ross's Diseases of the Nervous System* (1887). *Mackenzie's Diseases of the Throat and Nose* (1889). *Duhring's Treatise on Diseases of the Skin* (3d edition).

### OBSTETRICS.

**Playfair's System of Midwifery (5th American edition).** *Schroeder's Obstetrics.* *Lusk's Science and Art of Midwifery* (3rd edition). *Boisliniere On Obstetrical Emergencies and Operations* (preparing).

### SURGERY.

**Ashhurst's Principles and Practice of Surgery (4th edition),** or **Bryant's Practice of Surgery (4th edition).** **Walsham's Manual of Practical Surgery (1887).** *The International Encyclopædia of Surgery.* *Treves's Manual of Surgery* (1886). *Billroth's surgical Pathology* (1887). *Hamilton on Fractures and Dislocations.* *Stimson on Fractures and Dislocations.*

**Nettleship's Diseases of the Eye (3rd edition).** **E. L. Keyes's Genito-Urinary Diseases with Syphilis (1888).** *Ultzmann On Pyuria.* *C. H. Burnett's Treatise on the Ear* (2nd edition). *A. H. Buck's Manual of Diseases of the Ear* (1889).

### GYNECOLOGY.

**Emmet's Principles and Practice of Gynecology (3rd edition).** *Goodell's Lessons in Gynecology* (1887). *Winckel's Diseases of Women* (Parvin, 1887).

## GRADUATES.

1889.

The Forty-seventh Annual Commencement of the St. Louis Medical College was held on the evening of Thursday, March the 14th, 1889, at Memorial Hall, Prof. J. S. B. Alleyne, M.D., Dean, conferring the Degree of Doctor of Medicine, and Prof. J. M. Scott, M.D., delivering the Valedictory Address.

NAMES.	RESIDENCES.
BINNEY, CHARLES.....	Staunton, Ill.
CAMPBELL, JR., GIVEN.....	St. Louis, Mo.
FINNEY, SEWARD AUGUSTINE.....	St. Louis, Mo.
FRUMSON, HEIMAN, M.D.....	Moliv, Russia.
GEORGE, WILLIAM FRANCIS.....	Everett, Mo.
HAURY, SAMUEL SMITH.....	Summersfield, Ill.
HOLTGREWE, FREDERICK WILLIAM.....	St. Louis, Mo.
MILLER, WILLIAM HENRY, M.D.....	Holden, Mo.
MOORE, JOSIAH GEORGE.....	Fulton, Mo.
MOORE, WILLIAM MILROY.....	Olathe, Kan.
MURPHY, ROBERT BRENT.....	Fenton, Mo.
NIETERT, HERMAN LEWIS.....	Liberty Prairie, Ill.
SCHLEIFFARTH, CHARLES WIMAR.....	St. Louis, Mo.
WATERS, THOMAS BUCKLEY.....	St. Louis, Mo.
WINTER, FRANCIS ANDERSON.....	St. Louis, Mo.
WINKLER, FELIX LUTHER, M.D.....	West Plains, Mo.

# MISSOURI DENTAL COLLEGE.

THE TWENTY-FOURTH ANNUAL SESSION will commence on Tuesday, Sept. 24th, 1889, and continue until Saturday, March 8th, 1890.

## FACULTY.

A. LITTON, M.D.,	Professor of Chemistry and Pharmacy.
E. H. GREGORY, M.D.,	Professor of Surgery.
J. S. B. ALLEYNE, M.D.,	Professor of Therapeutics and Materia Medica.
H. H. MUDD, M.D.,	Professor of Surgical Anatomy and Clinical Surgery.
WM. TOWNSEND PORTER, M.D.,	Professor of Physiology.
F. R. FRY, M.D.,	Professor of Anatomy.
W. H. EAMES, D.D.S.,	Professor of the Institutes of Dental Science.
A. H. FULLER, M.D., D.D. S.,	Professor of Operative Dentistry.
J. G. HARPER, D.D.S.,	Professor of Mechanical Dentistry.

## DEMONSTRATORS.

PAUL Y. TUPPER, M.D.,	Demonstrator of Anatomy.
HARVEY G. MUDD, M.D.,	Demonstrator of Anatomy.
J. FRIEDMAN, M.D.,	Demonstrator of Chemistry.

Special lectures and demonstrations will be given during the course by men eminent in the profession.

The instruction by the Professor of the Institutes of Dental Science, and by the Professors of Operative and Mechanical Dentistry, will be both didactic and clinical.

Demonstrations will be given each day at the Infirmary in both Operative and Mechanical work, the great importance of clinical instruction being fully recognized.

The requirements for admission and graduation in this school are in accordance with the rules adopted by the Association of Dental College Faculties.

The curriculum is so arranged that, by the study of some additional subjects and by continuing his attendance through the spring months, the Dental Student may put himself in a position to enter, at the completion of his Dental course, the third or Senior class of the St. Louis Medical College, and thus eventually obtain the degree of Doctor of Medicine by one year's additional work.

No fee for Demonstrator's Ticket or Diploma.

Matriculation Fee,	\$ 5.00
Fees for each regular term, full course,	90.00
For laboratory supplies and anatomical material, payable with the tuition fee, each year,	10.00
For further information, or for an announcement, apply to	

H. H. MUDD, M.D., DEAN,  
2604 Locust Street, St. Louis, Mo.

THE QUIZ-CLUB  
OF THE  
ST. LOUIS MEDICAL COLLEGE.  
TWENTY-FIRST YEAR.

---

In the QUIZ-CLUB the formal instruction of the lecture room is supplemented by daily oral examinations, conducted by a corps of special instructors. The progress of each member of the Club is thus tested from week to week; difficult points are explained; and habits of mental concentration and accuracy of statement are cultivated. Faithful attendance upon the daily exercises of the Quiz-Club affords the best possible preparation for the prescribed examinations of the College. The work of the Club begins with the second week of the session, and continues until the end of the collegiate year, in May.

For additional information regarding the Quiz-Club application may be made to

J. FRIEDMAN, M.D., *Secretary*.

2804 Clark Ave., St. Louis, Mo.

THE ASSOCIATION OF ALUMNI  
OF THE  
ST. LOUIS MEDICAL COLLEGE.

---

THE ASSOCIATION OF ALUMNI has been lately reorganized as a working scientific society. Meetings are held, at the College, on the third Wednesday of October, December, February, and April. A course of lectures by eminent men, upon special subjects related to medicine, has been arranged for the season of 1889-90.

Membership in the Association is open to Alumni of the St. Louis Medical College, in good professional standing, and all are cordially invited to report their names and addresses to the Secretary in order that they may be formally received as members. Members residing in St. Louis are charged with an annual contribution limited to one dollar; non-resident members are exempt from all dues to the Association.

The Annual Meeting of the Association is held on Commencement day, in the afternoon; a social reunion of the members is appointed for the evening before Commencement.

It is hoped that the Alumni of the College, appreciating the value of a closer union with their *Alma Mater*, may be induced to give their support to the Association by making application for membership to

AMAND N. RAVOLD, M.D., *Secretary*,  
2806 Morgan St., St. Louis, Mo.
